Students, staff, and administrators of the Phoenix Foundation have the opportunity to access the Phoenix network for education purposes or to conduct school business. Anyone having access to our network shall be considered a user. The Phoenix Foundation does not have sufficient resources to monitor every aspect of network use and users are expected to act in a responsible and courteous manner at all times regarding its use. The following guidelines apply to all users when they access the Phoenix network connection which includes but is not limited to Schoology (Learning Management System) and the Phoenix Google Workspace domain.

1. Privileges - The use of Phoenix internet and network is a privilege and inappropriate use will result in disciplinary action. Based on this policy, the Administrator or designate, will deem what is appropriate use and their decision is final. The administration of the Phoenix Foundation may deny, revoke, or suspend/close specific user accounts or specific privileges such as Internet or email use at any time as required. Serious offenses may be referred to the RCMP/ CPS for investigation and possible criminal charges if the offense warrants such action. The network has limited bandwidth and Phoenix may limit personal access to the network to preserve bandwidth.

2. Property, System Use and Maintenance - The Phoenix network and e-mail system is the property of the Phoenix Education Foundation. Users may not move, repair, reconfigure, modify or attach external devices to the networks. Unauthorized use of the network and e-mail system is prohibited. E-mail or other files stored on a Phoenix Google drive are not considered private property and may be removed by the Administrator or designated personnel without prior notice to the User.

3. Privacy - Users do not have a personal privacy right in any matter created, received, stored in or sent from the Phoenix network or e-mail system. The Administrator or designate reserves the right to access any files to determine whether or not an employee or student is using the system for items of true "educational value". The Foundation may at times and without prior notice, monitor and review e-mail messages and web site retrieval by network users to ensure proper use.

4. Personal Safety - Always think about your own personal safety while using the Phoenix network or e-mail systems. Protect your privacy, as well as the privacy of others. Do not give out personal information, never agree to get together with someone you "meet" on-line, never send a personal picture or any other personal information. Do not respond to any messages that are inappropriate, mean or in any way make you feel uncomfortable. Report inappropriate behavior to the Phoenix Administrator or Principal in a timely manner.

5. Accounts and Password - Users must obtain an authorized account and password from the Phoenix Foundation Administrator in order to access the Phoenix network and e-mail system. Do not share the account or password with any other person or leave the account open or unattended at any computer system. Protect your email accounts by changing passwords/keys periodically and using passwords that are not easily guessed. Attempts to log-in to the system as any other user will result in disciplinary action. The Phoenix network may occasionally require new registration and account information from you to continue the service.

6. Responsible Use - The use of your account must be in support of education and research and consistent with the educational objectives of the Phoenix Foundation. Transmission of any material in violation of any Federal or Provincial regulation is prohibited. This includes, but not limited to:

- Network use is restricted to only those users that have been issued an authentic username and password by the Phoenix Administration.
- Respect copyright laws. Downloading or transferring copyrighted materials to or from any Phoenix computer without the express consent of the copyright owner is a violation of federal law and is expressly prohibited.
- All unauthorized and unlicensed software is prohibited on the Phoenix network.
- Users will not engage in illegal or unethical acts, including use of network access to plan or carry out any scheme to defraud or to obtain money, or other things of value by false pretenses, promises, or representations; or to damage or destroy computer-based information or information resources.
- Use of e-mail and other Phoenix network communications facilities to harass, defame, offend, or to disseminate defamatory, inaccurate, abusive, obscene, profane, sexually-oriented, threatening, racially offensive, illegal material, or otherwise annoy other users of the networks is forbidden. Each user has the responsibility to report all such violations.

7. Personally-Owned Devices

Individuals may use their own personal electronic devices on the Phoenix network. When using a personal electronic device, all of the above conditions apply. Personal devices registering/using on the Phoenix network can be monitored and the computing activities can be traced to the user. Only connect to the Phoenix wireless network. Do not use peer-to-peer sharing (music/video/gaming) software or web-hosting services while connected to the Phoenix guest network. Use personal electronic devices appropriately at all times. The security, care, connectivity, technical support and maintenance of personal devices is the user's responsibility. Phoenix is not responsible for the loss, theft, or damage of personal devices.

PARENT / GUARDIAN CONSENT

I have read, understood, and reviewed this agreement with my student. My student will abide by the Phoenix Foundation Responsible Technology Use Agreement. I realize that violation of these provisions may result in loss of use of network privileges, as well as possible disciplinary actions. This may include, but is not limited to, revocation or suspension of network privileges, suspension or expulsion from school, and/or appropriate legal action. I understand that Phoenix will use it's best efforts in order to limit internet access to only those areas of educational value, however, I understand that no matter how much supervision and monitoring and technical barriers Phoenix may utilize, there will always be the possibility of my student coming into contact with inappropriate and unacceptable material and I will not hold Phoenix responsible for materials acquired on the internet. I recognize the importance of my child becoming technologically aware in an increasingly technological society, and I give consent for my student to access the internet, Schoology and email systems of the Phoenix Foundation.
